

ATLANTA CUTLERY CORP TO SUPPLY THE US DEPARTMENT OF DEFENSE WITH NCO SABERS

ACC announces three year contract with the DOD for USMC NCO sabers

Conyers, GA – September 9, 2015– a proud moment for ACC as they have been selected once again by the US Department of Defense as official contractor to the USMC for NCO sabers covering the next 3 years.

Each piece is made using state-of-the-art processes in the experienced hands of expert blade smiths with decades of experience. Each saber is an individually hand crafted work of art.

The line can be purchased in blade sizes 28", 30", 32", 34" to fit you or any individual in the military. The sabers are available now directly from ACC and at select retailers.

About ACC

Established in 1971, ACC has been at the forefront of design, supply and marketing of military based edged weapons including supplying the USMC, ROTC and dozens of military academies. ACC has worked with The US Department of Defense, British Ministry of Defence, India, Columbia, Brazil, Canada, Greece and many others, always achieving their exacting standards. In addition it is the North America home for the honored military line from Toledo, Spain-Bermejo. For more information visit www.atlantacutlery.com.

About Bermejo S.A.:

Managed by world renowned sword brands Marto of Spain and Windlass of India, this military brand specializes in the development and manufacturing of innovative product lines demanded by the worlds military and national police. Items include swords, sabers and daggers for dress and drill needs covering all branches. Bermejo, S.A. is the oldest company dedicated to this activity and is the number one producer of military sword and sabers in the world. Armies of the five continents adorn their uniforms with Bermejo's swords. The respect for the classic manufacturing procedure and the experience of Bermejo's workers in the working of the steels, together with the special attention paid to quality are the secret of Bermejo.
