# Shrewsbury Sword

During the height of plate armor, this narrow, sharply-pointed sword was one of the most successful in finding chinks in armor or to even "punch through" if necessary. This long slender blade is double-edged and finely tapered. Possessing enough breadth to cut, the Shrewsbury is equally strong to thrust. Made by the master craftsmen at **Windlass Steelcrafts®**, the sword has been forged and replicated in a tough 1065 high carbon steel, which has strong edge-holding capabilities. The steel pommel is fig shaped and has been beautifully faceted. This sword has been named after the famous battlefield where Prince Hal (later Henry V of England) defeated Percy Hotspur and is noted by the pierced crosses in the steel guard. This sword ships complete with a real leather scabbard, with both scallops and a pierced cross on its fittings, as well as a belt stop. #501686...\$194.95

## 15th Century Arming Doublet

During the 15th century, plate armor was developing at a quickened rate. In order to attach these plates, a knight needed a doublet that would allow for the versatility of his armor. This doublet is one of the best we have ever offered. Made of 100% cotton canvas, it is filled with organic cotton felt, which allows body heat to escape better than poly-fill. Multiple eyelets allow the you to move your pieces to the best position possible. Multiple lacings tipped with sew-on aiglets are included. Black Only. Order M, L, LX, XXL. #101814...\$139.95

# Augsbury Suit of Armor

Though this suit is not made to be worn, it still maintains all the esthetic beauty of a full harness of armor. Handmade of 18 gauge mild steel, this imposing suit is one of the most affordable we have ever offered. The artisans of *Windlass Steelcrafts*® have worked on the suit and have upgraded the look, making these better than most of the more affordable armors on the market. Comes complete with a heavy, museum quality wooden pedestal base, decorative waist skirt and complete wooden interior form. Weighs 80 lbs. with stand and will be shipped motor carrier ground. #300508...\$1,195.95

# FAITHKEEPER – SWORD OF THE KNIGHTS TEMPLAR

The main driving force behind the Order of the Knights Templar was faith. Faith in God, faith in their mission and faith in each other. This sword is a testament to these valiant knights. The finest metal-smiths at *Windlass Steelcrafts®* have spent hours on each blade, hand-forging the high-carbon steel for optimal balance, quickness and durability. Holding this piece in your hand, will leave no doubt that this magnificent sword could have defended the Holy Land. The genuine hand-wrapped leather grip and the hand-finished solid steel parts show just how tough and beautiful this sword truly is. The pommel features an inset coin, a tribute to Bohemond II, Crusader Prince of Antioch, while the crossguard is inscribed on both sides with the Latin phrase *Christus Vincit ~ Christus Regnat* "Christ Conquers ~ Christ Reigns." The high-carbon steel blade has a deep fuller on both sides and has a pieced cross of the Knights Templar at its ricasso. The sword includes a custom, matching top-grain leather scabbard and period belt, which has been decorated with both the seal and cross of the Templar order. ## WAR HAMMER WITH SPIKE

By the mid 1400s armor had developed to the point that it was almost impervious to a sword blow. That's when the knight or man-at-arms would reach for a good solid war hammer. With sound blows, armor could be damaged and crushed, sorely affecting movement and the ability to defend one's self. This hammer has a large end spike, as well as small spikes on the sides. The back spike is thick and able to punch through armor. The head is attached with steel langets to the hardwood shaft, which is also studded for a secure grip.
